PRODUCT GUIDE

ART IN HEALTHCARE

HEALTHCARE SPACES CAN OFTEN BE QUITE CLINICAL AND BLAND.

WE'RE ON A MISSION TO CHANGE THAT, WITH OUR BESPOKE INTERIOR DESIGN PRODUCTS, TAILORED FOR HEALTHCARE. THERE ARE A HUGE RANGE OF BENEFITS TO TRANSFORMING SPACES WITH OUR PRODUCTS:

BRIGHTEN SPACES

Hospitals can be daunting places, often lacking any decoration which can leave them feeling bland and clinical. Artwork can help patients and staff feel much happier and relaxed in these environments.

SHORTEN RECOVERY TIMES

Numerous studies have shown that artwork can reduce recovery times, by creating a more comforting and relaxing environment for patients.

MENTAL WELLBEING

Healthcare artwork doesn't only have a positive impact on patients, it also improves staff morale and mental wellbeing.

THREE SIMPLE STEPS

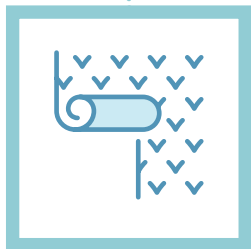

STEP 1: **MEASURE YOUR SPACE**

Measure the dimensions of your existing space which you would like covered. Photos are also helpful. Our team are here to help if you have any concerns or questions.

STEP 2: **CHOOSE YOUR ARTWORK**

Select something from our collection, send your own images, or speak to our expert team so that we can help you design your own bespoke artwork.

STEP 3: **INSTALLATION**

We can arrange the installation for you, recommend a local installer, or you can even install our products yourself.

OUR
PRODUCTS

OUR INKS

- Contain no Hazardous Air Pollutants (HAPs);
- Non-flammable
- Non-combustible;
- Odourless and;
- Nickel-free.

WALL COVERINGS

We have a range of wall coverings to fit your exact need and budget. They are:

- Fire Rated EN 13501-1: EuroClass B-S2, D0
- CE Certified EN 15102:200+A1:2011

PAPER-BACKED VINYL

Our most budget-friendly option, best suited for low- to medium-traffic environments. Available in a variety of stylish textured finishes.

SOLID VINYL

A slightly more durable option, with improved scratch and tear resistance. Available in a smooth scrubbable finish, either matt or gloss.

FABRIC-BACKED VINYL

Our most durable finish, the best option for high-traffic healthcare environments. Available in both a smooth wipeable finish and a variety of textures. Also has the option of an antimicrobial biocide additive.

METALLIC VINYL

A very stylish option, our PET laminated metallic wall covering is available in a silver or golden finish.

REMOVABLE VINYL

A non-permanent alternative that can be removed leaving no residue.

WINDOW ART

Our wide range of glass vinyl options are suitable for a variety of uses.

- Fire Rated EN 13501-1: EuroClass B-S2, D0
- Scratch-resistant finish
- PVC Free

SOLAR CONTROL

Our solar control films block up to 99% of UV light whilst still letting visible light pass, allowing you to control excessive heat gain in summer without sacrificing natural light.

OPACITY LEVELS

Choose a vinyl anywhere from ultra-clear or translucent, to fully opaque, depending on your requirements.

ONE-WAY VISION

If privacy is what you are looking for, choose our Contravision vinyl. Create private spaces for patients, while still allowing abundant natural light into the room.

CEILING TILES

Suspended ceilings offer a great opportunity to bring art and colours into your healthcare space to help patients feel more comfortable and relaxed. We have two different options;

PRINTED CEILING TILES

- Fire Rated BS 476
- Class 0 and EN13501-1 Euroclass B-S1-D0

We have a huge array of infinitely scalable patterns to print on any size suspended ceiling. Our wipeable printed tiles also have an integral biocide additive, to halt growth of bacteria and fungi.

LED CEILING TILES

- Fire Rated TP(a)

Our premium LED ceiling tiles bring something special to a room, giving an added illusion, allowing patients to 'escape' the confines of the hospital.

ROLLER BLINDS

Personalised roller blinds are another way to brighten up your healthcare interiors for a more positive patient experience.

Our blinds are available up to a maximum width of 1.5m and we recommend that our blinds be either recess fit, or face fit.

- 100% polyester
- Fire Rated BS5867-2: 2008 - EuroClass B
- REACH compliant
- PVC free

DOUBLE-SIDED BLACKOUT

Our blackout blinds block almost all light, and can be printed on both sides.

SINGLE-SIDED DIMOUT

Our translucent dim-out blinds are more suitable where total light block is not required, still allowing some natural light to diffuse into the space.

SIGNAGE & WAYFINDING

Speak to someone on our sales team so we can help develop a customised range of signage for your healthcare environment. Have a look at the vinyl and polycarbonate bay numbers we installed at William Harvey Hospital in East Kent.

- Fire rated to EN13501-1 EuroClass B

VINYL

Our range of self-adhesive vinyls are available in a wide array of colours, or can be custom printed and cut to any shape, to be stuck on either glass or solid walls.

POLYCARBONATE

Our printed polycarbonate signs can be fitted flush-to-wall, stand-off-wall and wall projecting. Offered translucent.

GLASS

We can also print on glass according to your specific needs.

POWDER-COATED METAL

Printing directly onto metal is another possibility if a highly fire resistant material is needed.

BESPOKE PRODUCTS

DOOR WRAP

- Fire rated EN13501-1 EuroClass B

Custom vinyl door wraps we designed for Barnet, Enfield and Haringey Mental Health NHS Trust pictured below.

Available in clear matt print film or high-opacity vinyl. Permanent adhesive suitable for various surfaces including wood, plasterboard, walls and flooring.
