

KWICKSCREEN®

MAKING SPACES

“
We’re on a mission to create a safe space for every patient

About KwickScreen

KwickScreen is at the forefront of infection control in Healthcare.

We are a team of Designers & Engineers who have spent the last 12 years innovating to make healthcare spaces safer & more flexible. Our award winning portable, retractable screens create better environments for patients everyday.

2009

KwickScreen founded

2010

Clinical trials with University College Hospital London

2011

Awarded the James Dyson Award for Design

2015

KwickScreen Inc, US subsidiary, established

2020

Expanded production tenfold

2021

Moved to new Global Design Headquarters in Central London

We are the inventors of the portable, retractable screen category

Unique & innovative design. 3 granted patents & 7 pending

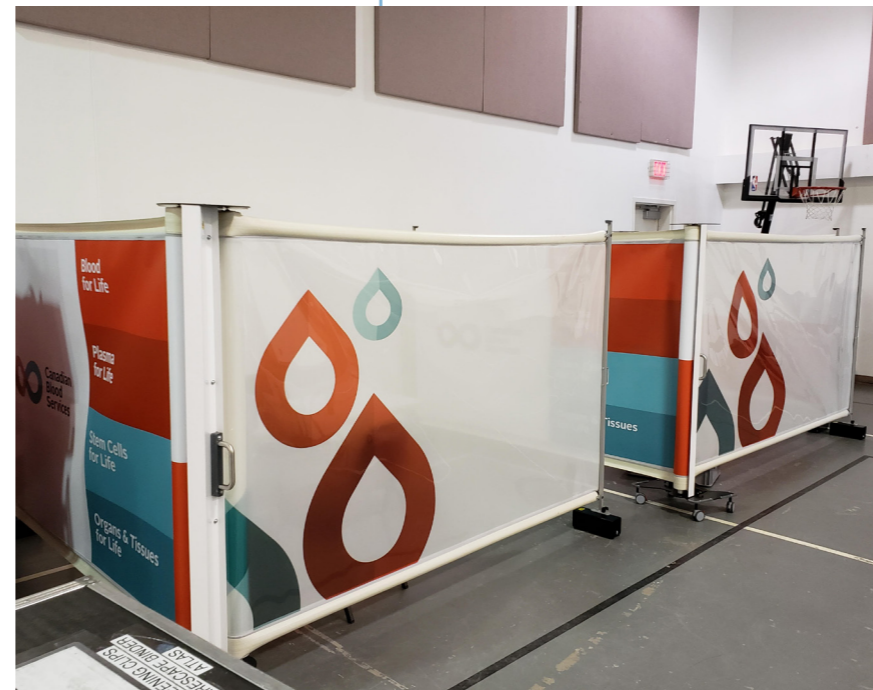

World's leading supplier of retractable screens, supplying 17 countries

Experienced in national rollouts

Supported hospitals throughout the COVID-19 crisis including supplying the world's largest field hospital, The Nightingale Hospital in London.

Supplied all the screens to Canadian Blood Services for their national blood donation drive.

“
We are grateful we found a solution that fits our needs due to the current global pandemic. Not only are they beautiful and liven the areas they are in, they are functional and keep our patients, visitors and employees safer.

Kimberly Canarie Baken, Director of Nursing - Advent Health Celebration

Pro

Our flagship product, the world's most portable and flexible hospital screen.

| | |
|-----------------|--------|
| Height | 6' 3" |
| Weight | 60 lbs |
| Retracted width | 1' 6" |
| Extended width | 10' |
| Base width | 1' 8" |

Easy to clean

Air

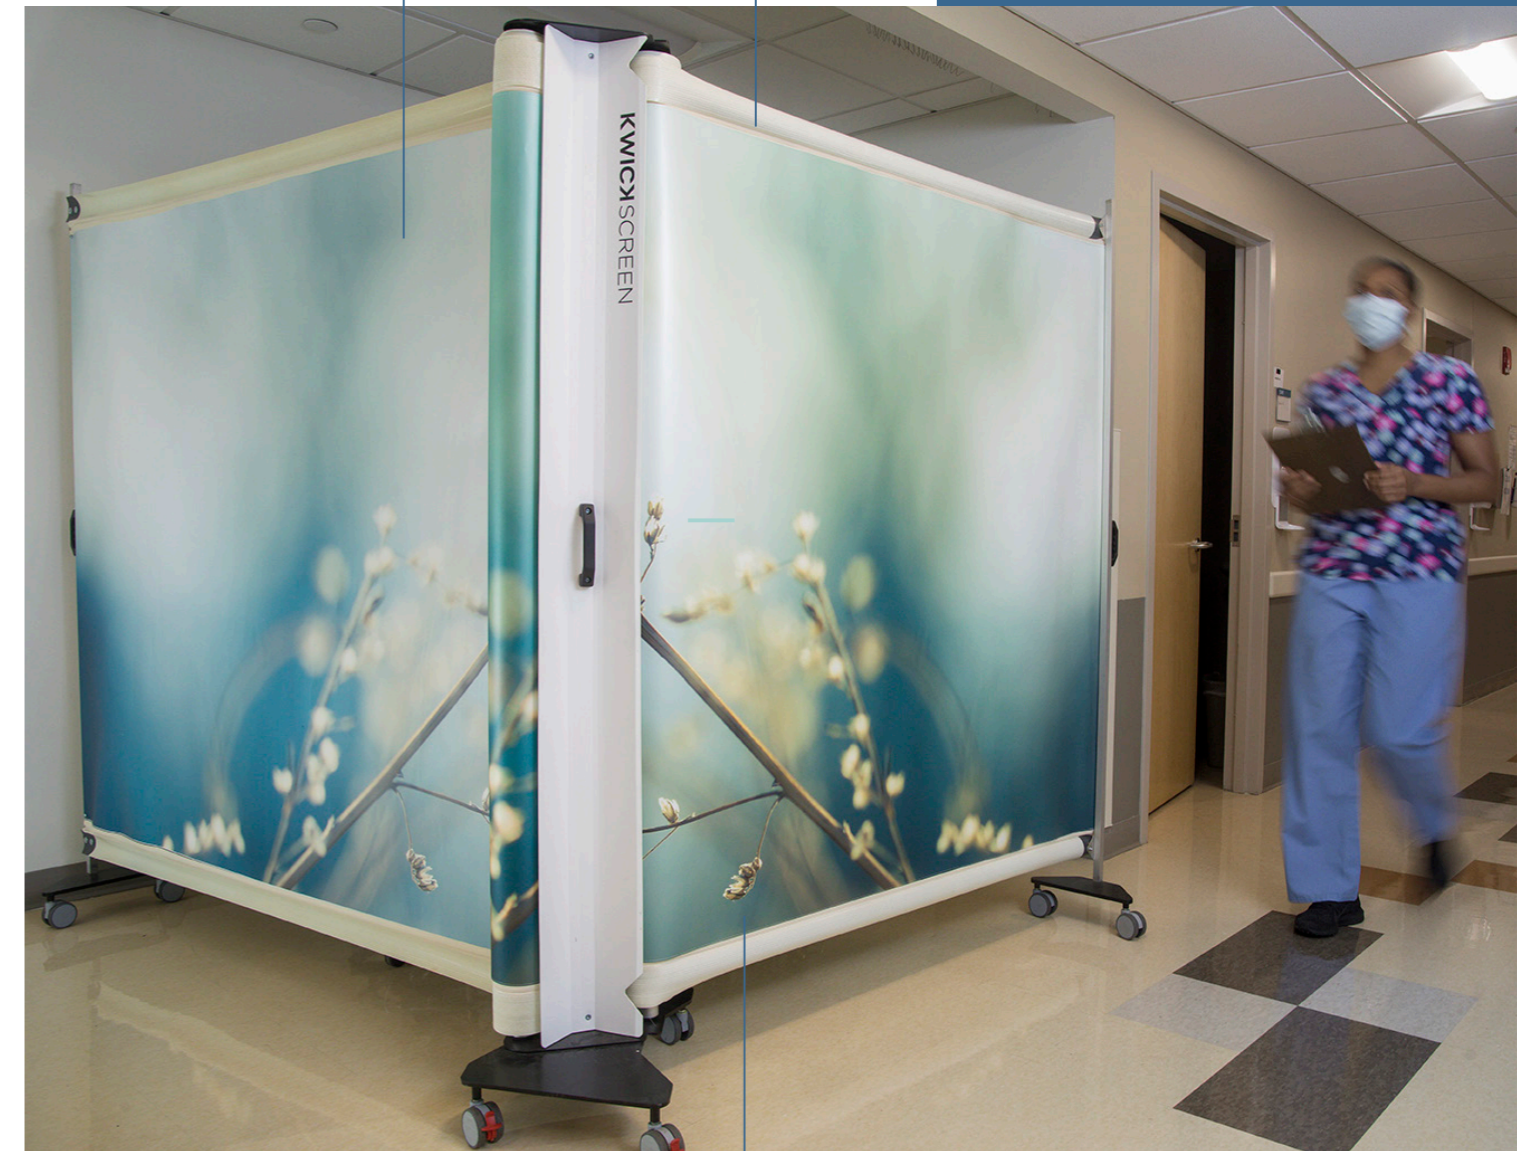

The unique fixed-to-wall option for stationary privacy that doesn't sacrifice flexibility.

| | |
|-----------------|--------|
| Height | 6' 3" |
| Weight | 28 lbs |
| Retracted width | 7" |
| Extended width | 10' |
| Base width | 1' |

Duo

Our most flexible product, the Duo allows you to create a completely private bay in seconds.

| | |
|-----------------|--------|
| Height | 6' 3" |
| Weight | 77 lbs |
| Retracted width | 1' 2" |
| Extended width | 20' |
| Base width | 1' 6" |

Unique L-Shape design

Kin

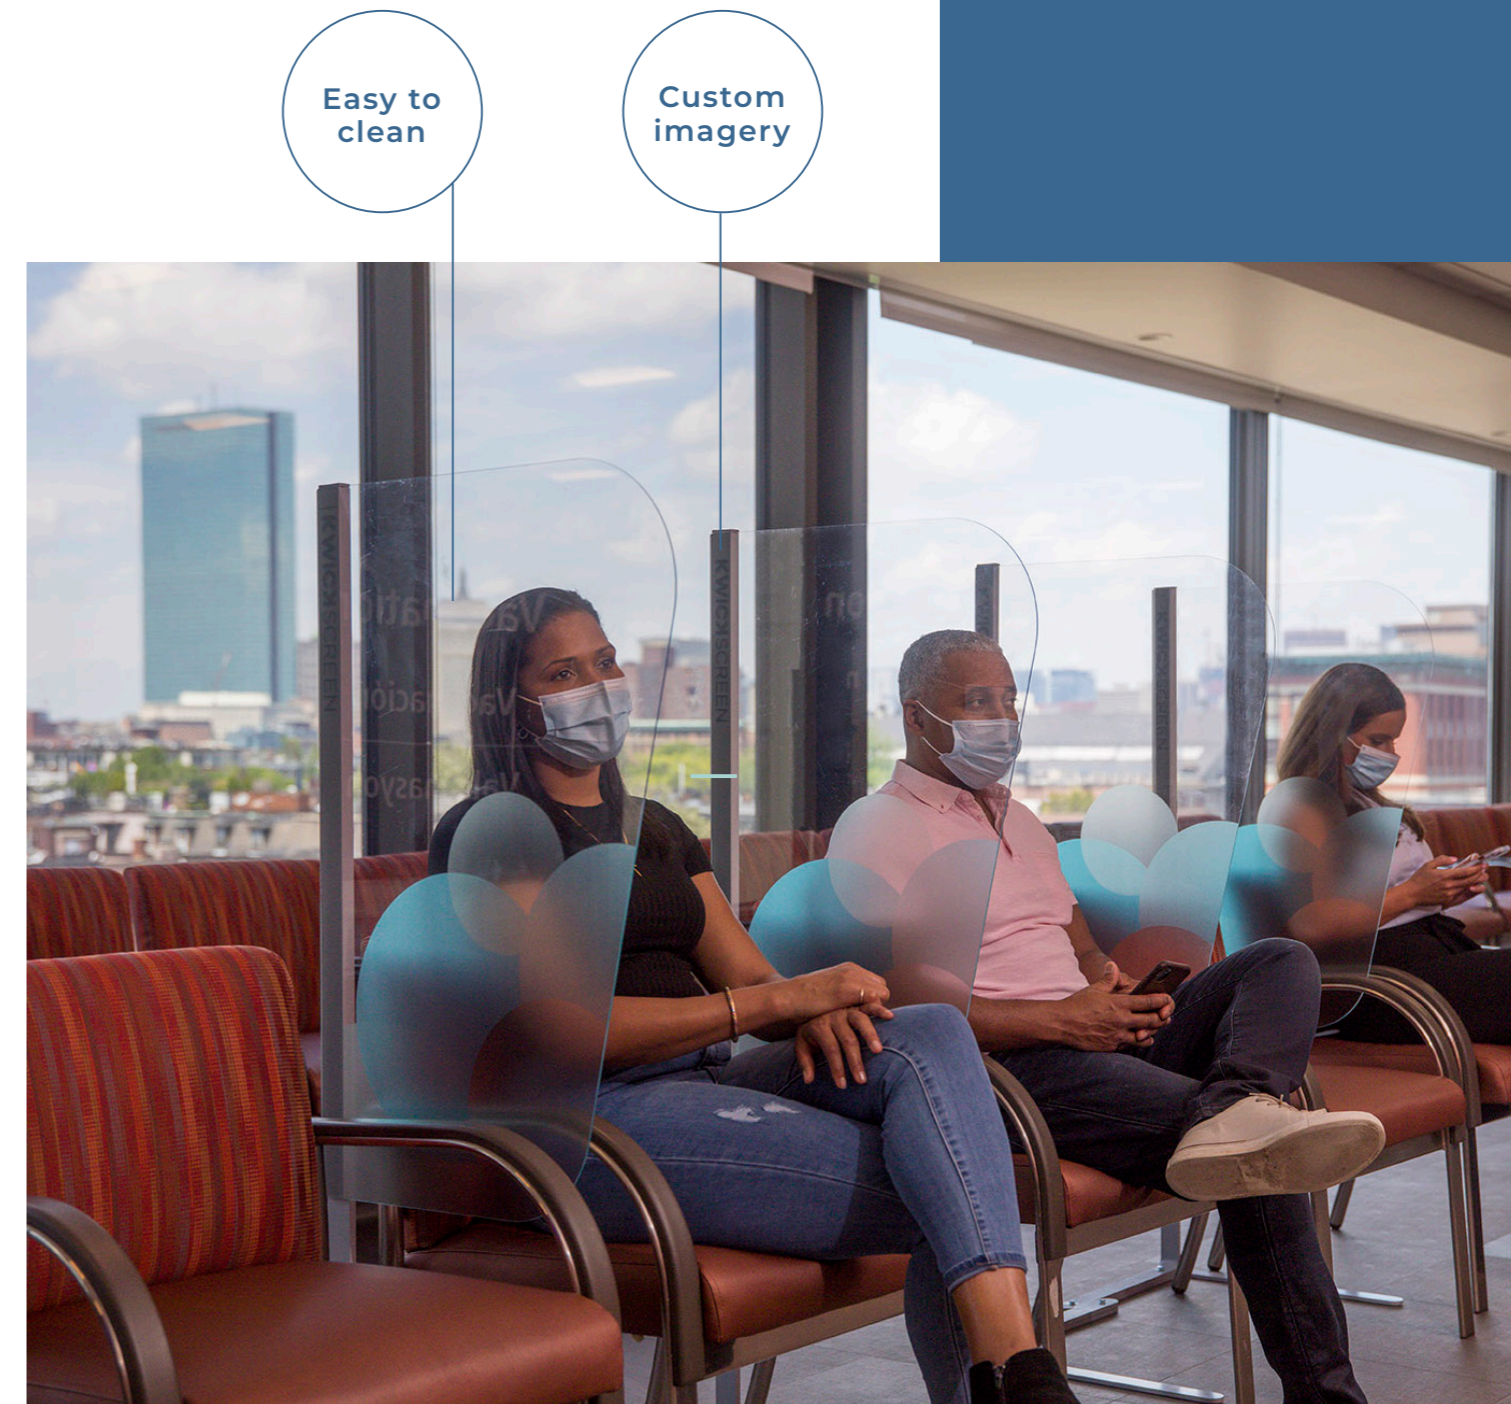

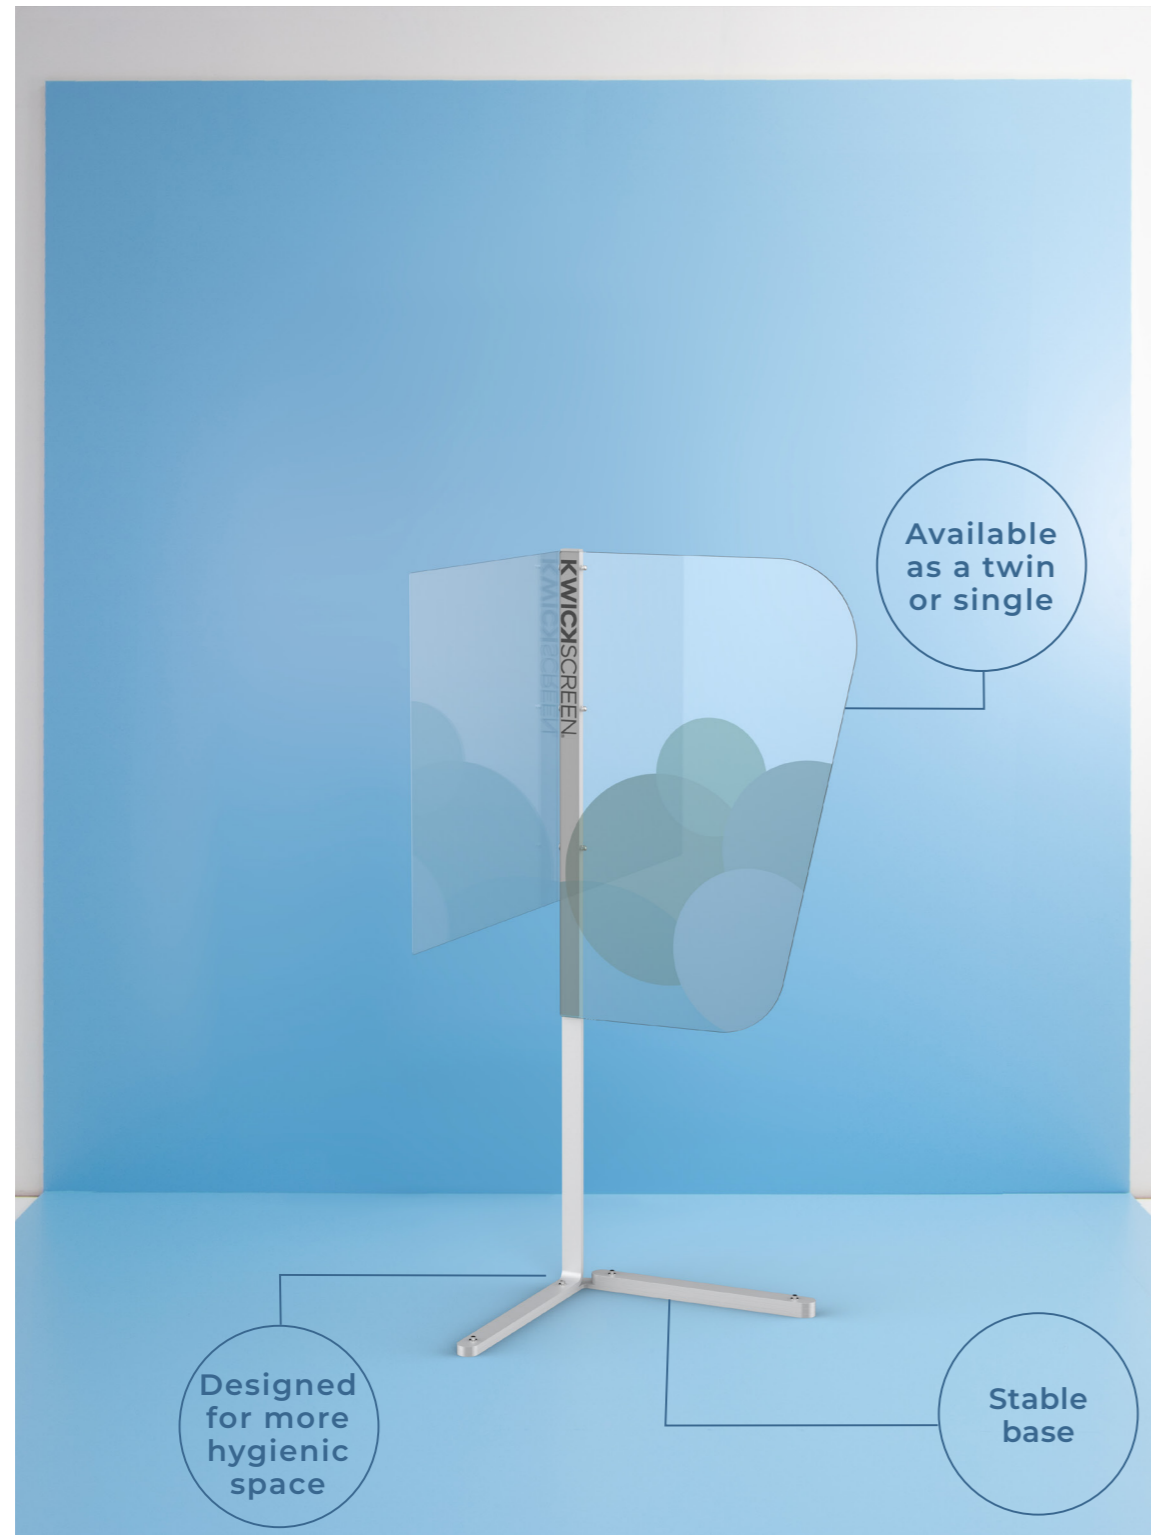

An unobtrusive fixed-to-wall screen, the KwickScreen Kin makes a sleek addition to the built environment.

| | |
|--------------------|--------|
| Height | 6' 3" |
| Lift & pull weight | 10 lbs |
| Retracted width | 7 1/2" |
| Extended width | 6' 7" |
| Base width | 1' 7" |

Shield

The solution to social distancing in waiting rooms.

Single Shield

| | |
|------------|---------------|
| Height | 4' 7" |
| Weight | 18 lbs |
| Screen | 2' |
| Base width | 1' 8" x 1' 8" |

Double Shield

| | |
|------------|---------------|
| Height | 4' 7" |
| Weight | 26 lbs |
| Screen | 2' x 2' |
| Base width | 1' 8" x 1' 8" |

Customization

- A large selection of standard artwork prints are available
- Artwork on screens can be fully customized to include branding, health campaigns or key messaging
- Ships with instructions to help staff orientate and deploy products correctly

“

I instantly liked the portability as well as the ability to change the screen length, this helps us divide up the room in any way we could imagine. We also loved our ability to customize the look. I've had only positive reviews from the staff.

Brendan Heitz, Athletic Facilities, Duke University

“

There was this “wow” factor we couldn't grab hold of before, but was suddenly front and centre for all to see.

Isaac Garcia, Environmental Services Director - Boston Children's Hospital & Sodexo

Designed with infection control

Easy to clean and maintain, compatible with all standard cleaning products

Designed to minimize droplet transfer, with smooth surfaces and minimum dirt traps

Proven to improve hand hygiene compliance

Single point of contact for ease of use

Set up and assembly

No construction or site surveys needed

Assembly videos and support available online

Simple assembly in under 10 mins

We have options to support installation

“

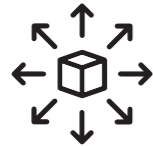

We had to come up with something that was not going to impede on the space, but still be able to separate it out. We didn't want to build a wall there, as we have the equipment and things that we have to pull out all the time. It had to be really robust so that someone didn't hit it with a little cart going through or whatever else. Ultimately it satisfied all the requirements that we had!

David Majestic, QuikTrip

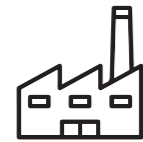

Supply Chain & Manufacture

Engineered for rapid manufacture with a verified supply chain

Resilient and flexible supply and distribution network

Quick reaction times with in-house production

KwickScreen Inc. is a wholly owned US subsidiary of KwickScreen UK

Technical Specifications

Seismic anchoring available for California, Nevada and Arizona

All our products meet international fire safety regulations

Designed to be deployable in any space

We have a proven track record and we are in over 200 hospitals in the USA

We have a wide range of commercial customers

Support

Dedicated phone support line from 8am EST - 6pm PST

Video support from our engineering team

24hr turnaround on spares & parts if needed
